MATEO GABRIEL SONZOGNI

Frontend & Full Stack Developer · Creative Developer

Río Negro, Patagonia, Argentina | mateogabus@gmail.com | github.com/MateoGs013 | linkedin.com/in/mateo-sonzogni | Immediate Availability · Remote / Hybrid

PROFESSIONAL SUMMARY

Software engineer specialized in reactive frontend engineering, API architecture, and user experience. Pre-approved degree thesis at Da Vinci School with 382 commits leading system architecture for an on-premise AI assistant. Verifiable production track record with 10+ deliverables for clients across Spain and Argentina (La Rúcula Gastrobar, ARG Piscinas). Proficient in TypeScript, Vue 3, Nuxt 4, React, Next.js, Node.js, FastAPI, and PostgreSQL. End-to-end product design mindset.

EDUCATION

ESCUELA DA VINCI 2024 – 2026 (In progress)
Associate Degree in Web Design & Development Buenos Aires, Argentina

- Pre-approved degree thesis: *Ynara* (Adaptive on-premise AI assistant with vector memory).
- Intensive training in modern web architectures, concurrency patterns, relational databases, and UI/UX design.

CENTRO DE EDUCACIÓN TÉCNICA N.º 30 (CET 30) 2017 – 2023
Computer Programming Technician (7-Year Technical Program) Cipolletti, Río Negro, Argentina

- 7-year comprehensive technical training in algorithmic logic, data structures, networking, operating systems, and software engineering.

PROFESSIONAL EXPERIENCE & PROJECTS

YNARA (DA VINCI THESIS) 05/2026 – 07/2026
Software Architect & Lead Frontend Buenos Aires, Argentina

- Led technical architecture and reactive frontend with 382 commits across 6 weeks of engineering.
- Engineered inference pipelines and persistent vector memory with Next.js and FastAPI achieving sub-100ms response times locally.

LA RÚCULA GASTROBAR (PRODUCTION) 03/2026 – 07/2026
Full Stack Developer & UI Designer Cadiz, Spain

- Achieved 99 Performance and 100 SEO & Accessibility Lighthouse scores with a compact 42 KB bundle.
- Integrated proprietary CMS and cached offline fallbacks ensuring uninterrupted service during outages.

ARG PISCINAS (PRODUCTION) 01/2026 – 07/2026
Full Stack Developer Andalucia, Spain

- Multilingual corporate web platform (ES/EN/DE) with custom CMS dashboard for projects and blog.
- Modeled relational schemas and end-to-end type safety using Prisma ORM, Node.js, and TypeScript.

FREELANCE SOLUTIONS (PRODUCTION) 2023 – Present
Full Stack Developer Remote

- End-to-end turnkey web solutions combining Figma UI design and production deployments across ~10 real-world projects.
- Engineered decoupled REST APIs with micro-interactions, strict type-safety, and automated test coverage.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ESNext), Python, PHP, SQL, HTML5, CSS3.
Frontend & Frameworks: Vue 3, Nuxt 4, React, Next.js, Tailwind CSS, GSAP, Lenis, Three.js.
Backend & APIs: Node.js, Express, FastAPI, Laravel, RESTful APIs, Middleware Pipelines.
Databases & Cloud: PostgreSQL (pgvector), Prisma ORM, MongoDB, Firebase, Supabase, Docker.
Tools & Methodologies: Git/GitHub, Vite, Figma UI/UX, Vitest, Playwright, CI/CD, WCAG Accessibility.
Languages: Spanish (Native), English (B2 Professional / Technical).
