02 / TECHNICAL STACK

FRONTEND:

Vue 3, Nuxt 4, React, Next.js, TypeScript, Tailwind, GSAP

BACKEND & DATA:

Node.js, Express, FastAPI, Python, PostgreSQL 17, Prisma

CLOUD & TOOLS:

Docker, CI/CD, Git, Linux, Figma UI/UX, Vitest, Lenis

03 / EDUCATION

ESCUELA DA VINCI 2024-2026

Web Design & Development

Thesis: Ynara.

CENTRO EDUCACIÓN TÉCNICA 30 2017-2023

Programming Technician (7 Years)

Algorithms, networking, systems.

04 / LANGUAGES

Spanish Native

EnglishB2 Professional Technical

PROFESSIONAL EXPERIENCE & SHIPPED SYSTEMS

04 DELIVERABLES

Ynara AI Assistant Da Vinci Thesis 05/2026 - 07/2026

Software Architect & Lead Frontend Buenos Aires, Argentina

On-premise adaptive AI assistant with local inference and persistent vector memory over PostgreSQL + pgvector.

- Led system architecture and reactive frontend with 382 commits over 6 weeks of engineering.
- Engineered Next.js client and FastAPI pipeline achieving sub-100ms semantic response times.

FastAPI Next.js PostgreSQL pgvector Python TypeScript

La Rúcula Gastrobar 03/2026 - 07/2026

Freelance • Full Stack & UI Designer Cádiz, Spain

Editorial menu-first web app optimized for table-side QR scanning with cached offline resilience.

- Achieved 99 Performance and 100 SEO & Accessibility Lighthouse scores with a compact 42 KB bundle.
- Integrated offline caching fallbacks ensuring uninterrupted service during network outages.

Vue 3 Vite Tailwind CSS GSAP Lenis

ARG Piscinas 01/2026 - 07/2026

Freelance • Full Stack Developer Andalucía, Spain

Multilingual corporate web platform (ES/EN/DE) with custom CMS dashboard for architectural projects and blog.

- Modeled relational schema and end-to-end type safety with Prisma ORM, Node.js, and TypeScript.

Vue 3 Node.js Prisma Tailwind CSS TypeScript

Pegasuz & Freelance 2023 - Present

Founder & Software Consultant Remote

Proprietary multi-tenant headless CMS and successful delivery of ~10 turnkey web solutions for diverse clients.

CAREER OBJECTIVE

Consolidate my impact as an engineer within a high-caliber team shipping large-scale production software. In the medium term, technical leadership: coordinating, organizing, and bridging disciplines across product, UI/UX, frontend, and backend architectures.
