

MATEO GABRIEL SONZOGNI

Frontend & Full Stack Developer · Creative Developer

Río Negro, Patagonia, Argentina | mateogabus@gmail.com | github.com/MateoGs013 | linkedin.com/in/mateo-sonzogni |

Immediate Availability · Remote / Hybrid

PROFESSIONAL SUMMARY

Software engineer specialized in reactive frontend engineering, API architecture, and user experience. Pre-approved degree thesis at Da Vinci School with 382 commits leading system architecture for an on-premise AI assistant. Verifiable production track record with 10+ deliverables for clients across Spain and Argentina (La Rúcula Gastrobar, ARG Piscinas). Proficient in TypeScript, Vue 3, Nuxt 4, React, Next.js, Node.js, FastAPI, and PostgreSQL. End-to-end product design mindset.

EDUCATION

ESCUELA DA VINCI

Associate Degree in Web Design & Development

2024 – 2026 (In progress)

Buenos Aires, Argentina

- Pre-approved degree thesis: *Ynara* (Adaptive on-premise AI assistant with vector memory).
- Intensive training in modern web architectures, concurrency patterns, relational databases, and UI/UX design.

CENTRO DE EDUCACIÓN TÉCNICA N.º 30 (CET 30)

Computer Programming Technician (7-Year Technical Program)

2017 – 2023

Cipolletti, Río Negro, Argentina

- 7-year comprehensive technical training in algorithmic logic, data structures, networking, operating systems, and software engineering.

PROFESSIONAL EXPERIENCE & PROJECTS

YNARA AI ASSISTANT (DA VINCI THESIS)

Software Architect & Lead Frontend

05/2026 – 07/2026

Buenos Aires, Argentina

- Led system architecture and reactive frontend with 382 commits over 6 weeks of intensive engineering.
- Engineered inference pipelines and persistent vector memory with PostgreSQL, pgvector, and FastAPI.
- Built the web client with Next.js and TypeScript, achieving sub-100ms response times in local environments.

LA RÚCULA GASTROBAR

Full Stack Developer & UI Designer

03/2026 – 07/2026

Chiclana de la Frontera, Spain

- Designed and engineered an editorial menu-first web app optimized for table-side QR scanning.
- Integrated cached offline fallbacks ensuring seamless continuous service during connectivity drops.
- Achieved 99 Performance and 100 SEO & Accessibility Lighthouse scores with a compact 42 KB production bundle.

ARG PISCINAS

Full Stack Developer

01/2026 – 07/2026

Andalucía, Spain

- Engineered a multilingual corporate web platform (Spanish, English, German) with custom administrative CMS.
- Modeled relational schemas and end-to-end type safety using Prisma ORM and Node.js.

FREELANCE DEVELOPMENT

Full Stack Developer

2023 – Present

Remote

- End-to-end development of custom software solutions with decoupled REST APIs and scalable architectures.
- Successful delivery of ~10 turnkey web solutions for clients across diverse sectors.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ESNext), Python, PHP, SQL, HTML5, CSS3.

Frontend & Frameworks: Vue 3, Nuxt 4, React, Next.js, Tailwind CSS, GSAP, Lenis, Three.js.

Backend & APIs: Node.js, Express, FastAPI, Laravel, RESTful APIs, Middleware Pipelines.

Databases & Cloud: PostgreSQL (pgvector), Prisma ORM, MongoDB, Firebase, Supabase, Docker.

Tools & Methodologies: Git/GitHub, Vite, Figma UI/UX, Vitest, Playwright, CI/CD, WCAG Accessibility.

Languages: Spanish (Native), English (B2 Professional / Technical).
