MATEO GABRIEL SONZOGNI

Frontend & Full Stack Developer · Creative Developer

// profile

Software engineer specialized in reactive frontend engineering, API architecture, and user experience. Pre-approved degree thesis at Da Vinci School with 382 commits leading system architecture for an on-premise AI assistant. Verifiable production track record with 10+ deliverables for clients across Spain and Argentina (La Rúcula Gastrobar, ARG Piscinas). Proficient in TypeScript, Vue 3, Nuxt 4, React, Next.js, Node.js, FastAPI, and PostgreSQL. End-to-end product design mindset.

// professional experience & shipped projects

Ynara AI Assistant Da Vinci Thesis 05/2026 - 07/2026
Software Architect & Lead Frontend Buenos Aires, Argentina
Adaptive on-premise AI assistant with local inference and persistent vector memory over PostgreSQL + pgvector.

- Led technical architecture and reactive frontend with 382 commits across 6 weeks of engineering.
- Engineered Next.js client and FastAPI pipeline achieving sub-100ms semantic response times locally.

#FastAPI #Next.js #PostgreSQL #pgvector #TypeScript #Python

La Rúcula Gastrobar Freelance 03/2026 - 07/2026
Full Stack Developer & UI Designer Cadiz, Spain
Editorial menu-first web app optimized for table-side QR scanning with cached offline resilience.

- Achieved 99 Performance and 100 SEO & Accessibility Lighthouse scores with a compact 42 KB bundle.
- Integrated proprietary CMS and cached offline fallbacks ensuring uninterrupted service during outages.

#Vue 3 #Vite #Tailwind CSS #GSAP #Lenis

ARG Piscinas Freelance 01/2026 - 07/2026
Full Stack Developer Andalucia, Spain
Multilingual corporate web platform (ES/EN/DE) with custom CMS dashboard for projects and blog.

- Modeled relational schemas and end-to-end type safety using Prisma ORM, Node.js, and TypeScript.

#Vue 3 #Node.js #Prisma #Tailwind CSS #TypeScript

Freelance Freelance 2023 - Present
Full Stack Developer Remote
Full-stack software development and turnkey web solutions for diverse clients with end-to-end architecture and REST APIs.

- End-to-end turnkey web solutions combining Figma UI design and production-ready full-stack software.
